

Note:

The "U-got-2" canopy accessory is attached to the senior Kool-Stride handle, . The canopy is provided to protect toddlers from the elements.

Retract the canopy that came with the stroller originally when using the "U-got-2" canopy you may want to remove the original canopy when using the "U-got-2" accessory. To remove the canopy, use a Phillips screw driver to remove canopy screws, ratchets, & frame pivot point. (Save parts for future use!)

ALWAYS USE THE 5 POINT SEAT BELT HARNESS

- * Seat child in a comfortable position
- * Thread lap buckle DD through strap loops EE as shown, and snap closed.
- * Thread seat belt EE with buckle DD through crotch strap BB. Snap the buckles together and adjust the seat belt BB tension.
- * Cinch shoulder strap GG until child is securely fastened in the seat.
- * L must be attached to frame bar (see L in assembly instructions). This is an important safety item.

Note:

Depending on the size of the child the shoulder straps GG can be lowered going under the straps FF as shown or raised by going over the lower strap FF. Use clip CC to keep the shoulder straps EE in place. Older or larger child should ride in the front seat.
